

Client Data Migration Brief

Structured information. Reliable outputs.

Record	PRJ-002
Prepared for	Client Success
Owner	Jordan Lee
Status	Attention required
Created	2026-09-03
Due	2026-09-18

Summary

Migration preparation for a synthetic customer dataset. The document records scope, validation points and the next actions without exposing any real client data.

Key figures

Metric	Value
Rows received	18500
Duplicates flagged	312
Invalid emails	47

Risks / open points

- Source B contains inconsistent date formats

Next steps

- Approve mapping rules
- Resolve date ambiguity
- Run final import rehearsal

Generated from structured input. Optional empty sections are omitted automatically.
